This test has very high-level questions. Let us now check out the test. This is the first section, which consists of 15 questions. So, the total question count is 18. The total time required to complete this section is 3 minutes. There are 3 multiple choice questions and 15 objective questions. The objective questions require no guessing. I can see some difficulty in this section. The very first question is definitely too easy. It's an easy formula for the calculation of the area of a circle. The next 2 questions are also very easy. The only difficulty here is to identify the required formula for calculating the area of a circle. So, I have been using the multiple choice questions to evaluate my scoring. In multiple choice questions, A is the correct answer and I am scoring 1 for each correct answer. Let us now check out the section 2. Here, I am scoring 2 marks for each correct answer. It has 6 multiple choice questions and 12 objective questions. However, the test has limited time to complete the objective questions. So, I will have to concentrate on every question to get the maximum score. Let us see the test, which consists of 15 objective questions. The total time required to complete this section is 2 minutes. Let's see if I could score a maximum number of marks in this section. In multiple choice questions, I have scored 1 for each correct answer. So, the maximum score that I can get for this section is 3. Let's check the questions and see how I can score a maximum number of marks in this section. We have come to the last section of the test. This consists of 5 multiple choice questions and 12 objective questions. The total time required to complete this section is 1 minutes. I have 3 marks in this section. Let us check out the questions. In multiple choice questions, I have scored 1 for each correct answer. So, I can get a maximum of 3 marks for this section. Let us see the questions in this section. Total questions in this test is 25. Total time required to complete the entire test is 5 minutes. In multiple choice questions, I have scored 1 for each correct answer. So, the maximum score I can get for this test is 25. How to check the RS Aggarwal Class 8 Maths Answer key 2020? The official website of the RPSC will soon provide the RS Aggarwal Class 8 Maths Answer key 2020. As soon as 82157476af
